

3 mm Überfüllung für Beschnitt

A technical drawing of a circular distributor. It consists of a light gray outer ring and a darker gray inner circle. The outer ring has a thickness of 3 mm, labeled as '3 mm Überfüllung für Beschnitt'. A horizontal double-headed arrow across the inner circle indicates a diameter of 40 mm, labeled 'Ø 40mm'. The text 'Inverkehrbringer distributor distributeur' is centered below the diameter line.
